

Take advantage of the "[Swoard Demo Tour](#)" to benefit from the free advices given by our instructors.

Otherwise, besides these 5 meetings, it is possible to test the SWORD models ([Extremecarver Gen4](#) and [DUAL](#)) by contacting one of the 11 shops and centers below.

Three of these centers are also schools which give extremecarving lessons.
See details on second page.

Remark: the model Extremecarver Pro, produced in limited series, is available only by online purchase.
