What is ECS?

SWOARD snowboards organizes the **ExtremeCarving Session (ECS)** every winter since 2004, for three days. This event has become much more than simple test days of the brand. It is included in the **Swoard Demo Tour**, with four other smaller meetings (in resorts we have "certified for EC"). "Demo" does not only mean that the participants can **test Swoard boards**, but also that they can watch **demonstrations of extremecarving** by the Swoard team (the founders and Swoard instructors).

Free lessons or advices are given to explain the ride technique developed by Jacques Rilliet and Patrice Fivat from 1995 to 2001. This technique, easily identifiable, is especially adapted to the width and other specificities of the **SWOARD Extremecarver**, the snowboard that inspired **extremecarving**. The words "rotation", "push-pull", "fluidity" and "gesture purity" will be part of your vocabulary. Advices on the settings of bindings and boots are also provided to benefit fully from all advantages of the SWOARD snowboards.

The level of most participants has incredibly risen since the first session, which had been organized at the request of the community over Internet. This event has become very popular with **more than 230 snowboarders (from 15-20 countries)** who want to push their limits still further.

The meeting takes place in the typical and small village of [Zinal](#) (Switzerland), **the home of Swoard**. At the altitude of 2900 m the panorama is just amazing. The participants can carve laid turns on the dream slopes that are shown in the Swoard movies, with the best specialists of the extremecarving discipline. A black slope, perfectly groomed, is reserved for us every morning.

During the three days of the event, the snowboarders are sharing their passion and experiences. Many friendships appear or get stronger. The **stands** on the snow, the **bars**, the **Saturday dinner** and other **activities** are contributing to the excellent atmosphere around this unforgettable experience.

More than **40 demo boards** will be made available for anyone who would like to test the **SWOARD Extremecarver Gen4** or the **SWOARD Dual**, whose program is larger and focusing more on freeride/freecarve, with softboots as well as hardboots. The **SWOARD Extremecarver Pro**, made in limited series by hand, is not available as demo board. Anyway the Gen4 is an amazing board for the riders who want to progress in carving and EC during the session, from beginner to expert.

The event gives also the opportunity to find the board that is best suited to your size / weight / shoes-size. Remember to bring your favorite bindings and hard boots as this equipment will not be supplied.

What is important in 2015?

- Saturday evening includes as always a **big festive dinner**, some films screening and brief speeches.
- The number of participants is **limited to 250 persons**. This is the maximum possible for the hotels of Zinal-Grimentz and the main hall. It's also important to keep the safety on the slopes and the quality of the event.
Accommodation is possible in Grimentz because the resorts are linked by a new gondola.
- The **blue, red and yellow packages** give access to the Saturday dinner (with distribution of goodies), the activities and the stands. They include this year **two tickets for cups of "mulled wine" at the stands from 15:00** : it is the opportunity for the participants to meet new persons or make groups for Sunday evening (free evening).
- **Important: all packages must be purchased BEFORE the meeting.**
See p. 6: REGISTRATION. Thank you!
- The participants will receive a **gift** at the end of the Saturday dinner. Of course T-shirts, caps, stickers and other goodies will always be available for those who want some.

Sward snowboards is the inviting party which proposes, but participants are required to organize for themselves their trip and take care of all expenses (hotel, food, gear, eventual insurances, lift costs...).

Sward organizes many activities, the dinners and the tests of the products it sells: Sward Company will not be held responsible of bad weather, lack of snow, or any accident that would occur during this informal meeting, which goal is to have people sharing the same passion together. Snowboard riding is a dangerous activity, and shall be taken seriously will all knowledge of your level. Please note that you will be required to fix the bindings on the boards yourself for security/liability reasons.

In case of heavy snowfalls that will make it impossible to do any form of carving, participants will be able to discover the fantastic freeride possibilities of Zinal, at own risks (freeride boards, beacon, shovel and pole mandatory can be rented, but not for 250 persons!).
