### Disclaimer:

Sward snowboards is the inviting party which proposes, but participants are required to organize for themselves their trip and take care of all expenses (hotel, food, gear, eventual insurances, lift costs...).

Sward organizes many activities, the dinners and the tests of the products it sells: Sward Company will not be held responsible of bad weather, lack of snow, or any accident that would occur during this informal meeting, which goal is to have people sharing the same passion together. Snowboard riding is a dangerous activity, and shall be taken seriously with all knowledge of your level. Please note that you will be required to fix the bindings on the boards yourself for security/liability reasons.

In case of heavy snowfalls that will make it impossible to do any form of carving, participants will be able to discover the fantastic freeride possibilities of Zinal, at own risks (freeride boards, beacon, shovel and pole mandatory can be rented, but not for 250 persons!).
